

CLEARANCE SHEET

TITLE: Strategy Execution and Evaluation: NOAA's Performance Management System

PURPOSE:

This Clearance Sheet is forwarded to finalize the revisions to NOAA Administrative Order (NAO) 216-111, formerly titled "NOAA Planning, Programming, Budgeting, and Execution System," but now titled "Strategy Execution and Evaluation: NOAA's Performance Management System." The Revision to this NAO was performed in response to a memorandum sent on 27 September 2010 from the Under Secretary to Assistant Administrators and Staff Office Directors, subject heading: "Transition to Strategy Execution, and Evaluation."

This NAO has been extensively reviewed and vetted through the assigned channel of the NOAA Strategy Execution and Evaluation (SEE) Council, the NOAA Chief Financial Officer (CFO) Council, and a virtual NOAA Executive Panel (NEP) to address comments and contributions from the Line Offices, Staff Offices, the NOAA Deputy Under Secretary for Operations, and the Director of Policy. The final version was forwarded from the NOAA Office of Program Planning and Integration (PPI) to the NOAA Office of the Chief Administrator (CAO) for clearance.
