

Release Notes for Grants Online Version 4.19B

Date Deployed: April 29, 2016

Application Tab

1. The system will accept one or more ACCS Lines with the same Organization Code and Project Task, but a different Object class. Enter each new ACCS Line with caution. For each subsequent line item added after the first ACCS Line, the user may need to modify the value for the Unique Account Descriptor. The value for that data element is carried over from the previous ACCS Line. [JIRA: GOL-35]

3. A process has been developed to extract data from SAM.gov. The extracted data is used to populate and/or update the data elements associated with the Organization Profile. [JIRA: GOL-76]
4. The EDA workflow has been modified to ensure the EDA Director gets his/her task at the appropriate time. [JIRA: GOL-87]

Awards Tab

1. All post-award actions (e.g., declined award, reduction in funding, declined amendment, closeout, or funded/non-funded amendment) are sent directly to the Grants Specialist specified on the Award. If the award is reassigned to another Grants Specialist, future post-award actions will be routed to the new Grants Specialist.

The applicant's state is among the columns included on the Your Tasks screen. The inclusion of this column allows a user to view and/or sort the tasks by state. [JIRA: GOL-73]

2. The non-Federal amount on the Partial Funding documents (associated with an administrative adjustment to non-Federal funds) correctly displays. [JIRA: GOL-382]
